Why bring your household hazardous wastes to a scheduled event?
Household products containing toxic chemicals, like pesticides, oil-based paints, solvents, cleaning products, weed killers and automotive batteries can be a threat to people and the environment if improperly discarded. Never throw these materials into the trash, as the toxic chemicals may harm sanitation workers, or result in fires in collection vehicles. It is also not safe to pour them into a sink or storm drain as they can end up in the environment polluting the air, water, or soil.

This program is a community service of the Bucks County Board of Commissioners and participating municipalities and is not open to business, industry, or institutions.
